

Workshop trolley

No.131 000 · WWZ-F

The mobile workshop trolley model WWZ-EKWN is a perfect combination of a mobile working place of deposit and unit-supported working. It is equipped with a removable, manual quick-action clamping device and a removable powder filling unit with manual height adjustment.

Powder filling unit:

- » Absolutely dust-free emptying and filling in continuous operation and interstorage of powder in a tank
- » Appropriate for all types of powder (ABC, BC etc.)
- » Interstorage of extinguishing powder up to 12 kg

- » Big inspection glass for control of powder and filling level
- » Manual height adjustment
- » High-capacity suction motor with 1200 W
- » Maintenance-free polyethylene filter package with automatic filter cleaning during filling procedure by opening of AIR-MATIC flap

- » Universal filling adaptor for all sizes and types of powder extinguishers
- » Non-expendable filling and vacuum ball valves
- » Big, removable, diagonally positioned powder sieve (240 mm length) which retains lumps and contamination
- » Separate rack for powder filling unit is provided

Trolley:

- » 2 guide-brake rolls, 2 fixed rollers for heavy loads (Ø 125 mm)
- » Place of deposit (l x w) approx. 700 x 450 mm
- » Set with 4 suction lances Ø 15, 20, 25 and 32 mm, 700 mm length incl. lance support
- » Abrasion-proof suction hose with connection 1500 mm length
- » Corrosion-free aluminium profile construction
- » Lockable doors
