

Workshop trolley

No.132 000 · WWZ-EKWN

The mobile workshop trolley model WWZ-EKWN is a perfect combination of a mobile working place of deposit and unit-supported working. It is equipped with a removable, manual quick-action clamping device and a powder filling unit with electric height adjustment.

Powder filling unit:

- » Absolutely dust-free emptying and filling in continuous operation and interstorage of powder in a tank
- » Appropriate for all types of powder (ABC, BC etc.)
- » Interstorage of extinguishing powder up to 30 kg
- » Big inspection glass for control of powder and filling level

- » Electric height adjustment
- » High-capacity exhaustor with 1,5 kW
- » Maintenance-free polyethylene filter package with electric filter cleaning during filling procedure
- » Universal filling adaptor for all sizes and types of powder extinguishers
- » Non-expendable filling and vacuum ball valves
- » Big, removable, diagonally positioned powder sieve (275 mm length) which retains lumps and contamination

Trolley:

- » 2 guide-brake rolls, 2 fixed rollers for heavy loads (Ø 125 mm)
- » Place of deposit (l x w) approx. 700 x 450 mm
- » Set with 4 suction lances Ø 15, 20, 25 and 32 mm, 700 mm length incl. lance support
- » Abrasion-proof suction hose with connection 1500 mm length
- » Corrosion-free aluminium profile construction
- » Lockable doors

TECHNICAL DATA

Motor:	AC 230 V + N + PE, 10 A, 50 Hz
Dimensions (l x w x h):	with clamping device: approx. 2100 x 500 x 1300 mm
without clamping device:	approx. 1500 x 500 x 1300 mm
Max. height at work:	max. 1800 mm
Noise level:	74 – 76 dB(A) (according to operation of the unit)
Operation:	without any vibration
Weight:	approx. 90 kg
Filling capacity:	25 kg/min
Colour:	hammer finish painted blue

Optional available at extra charge:

- » Equipped with bench vice
