

Stationary Powder Filling Units
No. 159 000 · DAYNER

Model DAYNER with belt and lifting system SPS-controlled powder emptying and filling unit for the exact filling of portable extinguishers of all makes and sizes. The powder is filled directly out of a silo or a BIG-BAG with charging hopper in continuous operation into the extinguisher with the requested weight.

The DAYNER is equipped with an electronic scale which switches off on reaching the preset filling weight. The scale can be programmed with filling weights. These weights can be activated according to weights required and are indicated on operating panel.

BIG-BAG cabine in open construction, expandable with transport belt.
