

## CO<sub>2</sub>-Filling Units

### No. 252 500 · KU1-WA

**Electrical CO<sub>2</sub> filling unit for filling CO<sub>2</sub> cartridges from 20 g to 6 kg CO<sub>2</sub> bottles.**

Large cylinders weighing more than 6 kg can be filled with CO<sub>2</sub> using a hose with an adapter (No. 200 105). This hose is then connected to the filling head. The device must then be switched off manually and a separate scale used.

**The unit is extra equipped with:**

- » Digital scale, max. 30 kg, 10 g resolution
- » automatic shutdown
- » CO<sub>2</sub> disposal hose

**Available at extra charge:**

- » CO<sub>2</sub> Filter

#### TECHNICAL DATA

Dimensions (l x w x h):	approx. 1100 x 500 x 600 mm
Construction:	aluminium
Pump:	3-pistons-pump
Motor:	230 V, 50 Hz, 10 A or 3 x 230/400 V, 50 Hz, 16 A
Capacity:	approx. 3 kg/min
Weight:	approx. 90 kg
