

Respiratory protection

No. 900 700 · BREATHING APPARATUS TROLLEY AG-6-6

The EMDE BREATHING APPARATUS TROLLEY, model AGM 6-6 is used for the safe transportation of up to 6 sets of breathing apparatus, 6 respirator masks and 7 x 6 I replacement air cylinders. The storage compartments for the replacement air cylinders are made from scratch-resistant plastic to guarantee good protection of the cylinders during storage.

The trolley is fitted with two steering/braking wheels and two fixed wheels. The wheels have Aluminium rims and solid rubber tyres to ensure the trolley has minimal rolling resistance and is easy to manoeuvre despite its weight even on rough ground. The single wheel load is 400 kg. The trolley doors can be locked. The end rods are secured at both sides and prevent the replacement air cylinders slipping during transportation.

The trolley is fitted with:

- » Lockable doors
- » 6 compartments for breathing apparatus
 Compartment size (I x w): approx. 300 x 360 mm
- » 6 compartments for respirator masksCompartment size (I x w):approx. 170 x 360 mm
- » Handle bar for pushing the trolley

Licences and guidelines:

- » Complies with GGVSE (German regulations for the transportation of dangerous goods by road and rail)
- » Complies with "Guidelines for the design and use of non-powered trolleys by fire services"

(Expert recommendation No. 2/2014 from the DFV (German Fire Service Association))

Options available at extra charge:

- » Kill switch (pull) (No. 950 999)
- » Kill switch (push) (No. 950 998)
- » Shelf area with rubber mat on the upper side (No. 905 505)
- Additional fold-out work surface at the side (No. 905 600)
 Dimensions (I x w): approx. 700 x 800 mm
 Working height: approx. 1000 mm
