

Model PT

(No. 100 450)

Pneumatic clamping device for CO₂- and powder extinguishers with pneumatic clamping cylinder.

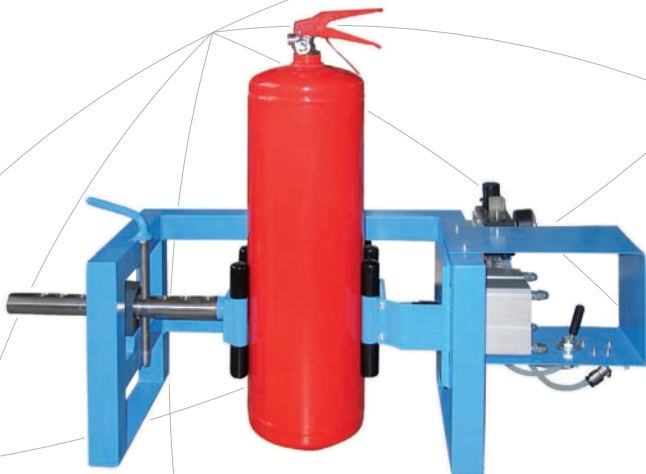

Optional available at extra charge:

» Equipped with adjustable clamping pressure (used for powder extinguisher)

TECHNICAL DATA

Dimensions (l x w x h): approx. 300 x 850 x 1000 mm
 Clamping surface (Ø): 80 – 220 mm
 Compressed-air: 6 – 8 bar
 Colour: hammer finish painted blue

Model PW

(No. 100 430)

Pneumatic clamping device for powder extinguishers to be mounted on a work bench.

Optional: tiltable 360°

TECHNICAL DATA

Dimensions (l x w x h): approx. 350 x 750 x 280 mm
 Clamping surfac (Ø): 80 – 220 mm
 Compressed-air: 6 – 8 bar
 Colour: hammer finish painted blue

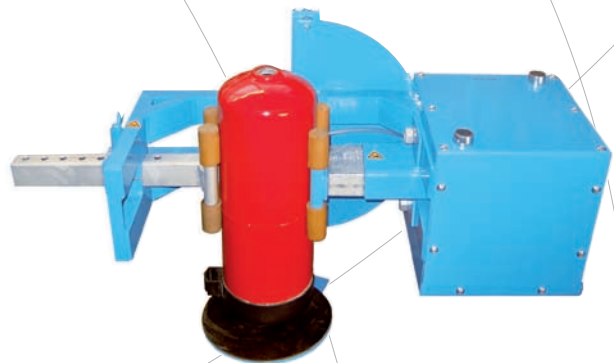

Model PW-D

(No. 100 440)

Pneumatic clamping device for powder extinguishers to be mounted on a work bench.
 The clamping device is tiltable of 360°.

TECHNICAL DATA

Dimensions (l x w x h): approx. 350 x 750 x 280 mm
 Clamping surface (Ø): 80 – 220 mm
 Compressed-air: 6 – 8 bar
 Colour: hammer finish painted blue

Model M

(No. 100 410)

Quick-action clamping device; manual operation to be mounted on a work bench.

Optional: Tilting clamping Device 360°

TECHNICAL DATA

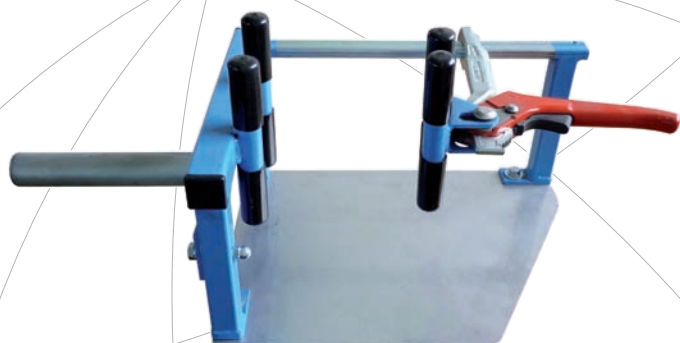

Dimensions (l x w x h): approx. 400 x 300 x 240 mm
Clamping surface (Ø): 80 – 220 mm
Colour: hammer finish painted blue

Model M-D

(No. 100 420)

Quick-action clamping device; manual operation to be mounted on a work bench.

The clamping device is tiltable of 360°.

TECHNICAL DATA

Dimensions (l x w x h): approx. 400 x 400 x 280 mm
Clamping surface (Ø): 80 – 220 mm
Weight: approx. 3kg
Colour: hammer finish painted blue
